

Lost in light

Intro:

Lights down low, turn the lights down low.
Lights down low, keep your lights down low.
Turn the music on higher, turn your heartbeat on.
You could turn me on, just keep your lights down low.

Instru mit Xylo.

Strophe 1:

Turn your lights down low, your lights down low, your lights down low for a while.
To see the stars up in the beautiful sky.
See what they've been hiding from us.
We've been wondering why.
We've been trying to find what's been hiding behind.
Some times your of time. Sometimes out of line. Sometimes you're out of your mind
This time your lost in light, sometimes I see you lost in light.

Ref ska.

And I've been wonderin why. Tell me why.
Cause I can see all the time. Tell me why, who why. Cause ive been wondering wondering why. (2x)
Today I see no light.

Strophe 2:

And then you're starting to see, 365 days in a week, still not enough, to find your way, to live your dream, to rise up.
And then you starting to be that what you've always been avoiding to seel know it is not easy.

Outro

lights down lowwww.....Lights down low ...keep your lights down low...

Today we see no light.
